PARIS, July 15.—It is believed that the government has decided to accede to the request of the Hon. Whitelaw Reid, the United States Minister, to remove the embargo upon American pork, as it is known that the government has agreed to bring forward a bill modifying the general customs tariff of May, 1891, and fixing the duty at 20 francs per 100 kilos on all salted pork, ham and bacon imported from the United States.

When it was announced a few days ago that Chicago intended to give, in October, 1892, in connection with its World's Fair enterprise, Chicago intended to give, in October, 1892, in connection with its World's Fair enterprise, an industrial parade, in which there would be floats illustrating the discovery of America and notable events in the history of the first 500 years of the country, many thought that it would clash with the entertainment to be given in this city in September of the same year. Mr. Frank Galennie, speaking of the matter to-day, said: "There will be no clash. If you will turn to the file of the Post-Disparch of May 12, in which the announcement of our plans is made, you will find that while they have taken the same subject for illustration that we have, they illustrate American history by floats in a parade, whereas we are to illustrate the discovery of America by allegorical representations in connection with our illumination. We are to have large paintings of various important features of that early history of the country and at night these pictures are to be illuminated. St. Louis and Chicago are working in perfect harmony and it was only natural that they should illustrate the discovery of the country in some manner. If the Veiled Prophet takes the discovery of the country in some manner. If the Veiled Prophet takes the discovery of the country in some manner. If the Veiled Prophet takes the discovery of the country in the veiled prophet takes the discovery of the country in some that one. While we were the first to adopt the idea of illustration the two cities, but while, of course, no one knows what subject he will illustrate, I feel quite certain it will not be that one. While we were the first to adopt the idea of illustrating the discovery of America, Chicago would no doubt have got up something of the kind they are to have, even though we never announced our intention of giving such a display, as the subject is one which would naturally suggest itself on the anniversary year of the courrence." ROUMANIA CORDONS HER PRONTIER AGAINST THE RUSSIAN REFUGEES.

LONDON, July 15.—A dispatch from Bucharst stating that the Government of Roumania has found itself compelled to cordon the Rus-sian frontier to prevent the Jews expelled from Russia from literally overrunning the country is freely and variously commented upon by the London papers this morning, the question underlying the argument of each ournal being, "Where shall the expelled journal being, "Where shall the expelled Jews find refuge?" Until there was danger that the effect of the Czar's edict against the Jews would be to fill the already uncomfort-ably crowded portions of London with an eleany crowded portions of London with an example to which the metropolis is already surfetted, the papers teemed with articles denouncing the inhumanity of the Czar's course toward a peaceable and not offensive people, while meetings of sympathy with the unforunates were held daily and nightly. All this has changed since the arrival in London of trongly advised to seek some other country than England as a refuge from persecution nania this course was taken with the result of leading the exiles to believe that they would be welcomed there. Jay Gould and his right bower, Mr. Sidney Dillon, were among the missing. The fact is that things went wrong with Mr. Gould at yesterday's meeting and he left the hotel last night a greatly disappointed man. The postponement of the joint agency plan, the adoption of which, earnestly advocated by Messrs. Gould, Dillon and Clark, was unexpected, and the subsequent decision regarding the appeal of the Missouri Pacific on the Hutchinson salt traffic, was virtually a defeat for the triumvirate who represent the Gould interests. While a rehearing of the case was allowed, it is said the commission's original decision will probably be adhered to, and the road will be compelled to comply with the decision until the matter has been finally decided.

Mr. Gould is said to be in a very delicate state of health and it is said he has left the city. His residence was wide open yesterday and to-day apparently deserted, the shutters being fastened up and the house not open for visitors.

The appearance of Chauncey M. Depew at the Windsor occasioned some comment, and it was supposed that he had come on business perturning to the Vanderbüt lines and their Western connections. It seems, however, that he came only to meet his friend, H. H. Wilson of Chicago, who sails with him to-day on the Majestic. ## Judge Warder of Chattanooga Suicides

CHATTANOOGA, Tenn., July 15 .- At an early hour this morning Judge J. A. Warder, at his summer home on Lookout Mountain, placed a pistol to his right temple and pulled the trigger, inflicting a ghastly wound, resulting in his death.
In January last Judge Warder entered his

home in an intoxicated condition and for some trivial reason began abusing his family. Mr. Simpson Fugette, son-in-law of the Judge, who was a prominent banker of Chattanooga, hearing the loud talking in an adjoining room, at the solicitation of his wife they entered together. Mr. Fugette had hardly gotten in the door when Warder drew as returned the shot, but was killed by a second builet from Warder's pistol. Mrs. Fugette also received a slight wound. Warder was shot, and for a time it was thought fatally injured, but finally recovered. Judge Warder's trial has been postponed from time to time on a piea of ill health. Judge Warder, since the killing of his son-in-law, has never recovered his physical or mental strength and was but the wreck of his former self. Another Constable drove up in a buggy and took Grether away just in time, for the crowd had grown desperate. The other officers finally got away, and the wounded were picked up.

Robert Brown, a sailor on the Charleston, died is a few minutes from the effects of a blow on the head with a club. Another Charleston sailor, Paddy Burns, is dying with a fractured skuil. Deputies Bradiove and Grether were badly bruised about the head, and a number of other persons injured. There is great excitement, and threats of lynching all the deputies concerned in the trouble were freely made. The sympathy of the community seems to be with the sailors, as it is said the officers were too officious for the sake of securing the reward offered for deserters, as they undertook to arrest sailors whose shore leave had not expired. Wilson, Bradlove and Grether have disappeared and cannot be found.

JOSHUA, Tex., July 18.—Two unknown men cut the throats of the aged mother of Dr. Newberry, living two miles west of here, and of three little children found in the house, about 1 o'clock yesterday morning. The old lady is still living, but the others are dead. The men had been admitted to the house in the absence of Dr. Newberry and being refused money, ited old Mrs. Newberry to the yard gate and cut her throat, after which they murdered the three little children, aged 7, 4 and 2 years. The three bodies were piled together in the yard. Newberry had just been paid 800 damages by the Santa Fe Railroad Co. and it is supposed the men were after that money.

ROBBED ON A STREET CAR.

CHICAGO, Ill., July 18.—One of the most daring robberies which has taken place in Chicago for some time occurred on a Wabash avenue car last evening. Mrs. E. H. Lincoln, proprietress of a restaurant, was going home carrying a satchel containing money and jewelry to the amount of \$500. When the car was between Twentieth and Twenty-first streets a man rushed in, seized the satchel and fied, followed by another man who had sat beside Mrs. Lincoln all the way out. An officer went in pursuit and captured the man who had been sitting in the car, but his confederate escaped with the plunder. The prisoner, who gave the name of George Butler, refused to talk.

THE CONVENTION DECLARES IN PAVOR OF FREE COINAGE

And Advocates a Graded Income Tax-Minority Report on the Silver Question -How the Delegates Stood on the Issue Speeches for Favorite Sons-Address

CLEVELAND, O., July 15 .- One of the largest and at the same time most inharmonious conventions ever assembled in the history of Ohio Democracy met in this city at 10:30 o'clock this morning. The renomination of Gov. Campbell had been conceded by his opponents since last evening, but their sturdy determination to refuse, after the for-mal result should be assured, the time honored courtesy of a unanimous nomina-tion wrought dismay in the hearts of all those who declare that in a united harmonious Democracy rests the only hope of victory in the coming campaign. The vast Music Hall in which the convention was held was packed to its utmost long before the hour of meeting arrived. The decora-tions as is usual on such stirring occations as is usual on such stirring occasions consisted largely of the American colors
which draped pillars, galieries and boxes,
and gave to the interior of the vast hall all
the colors of the rainbow. Suspended above
the stage and just over the Chairman's head
was a vast floral decoration bearing in letters
of violet: "Greeting, Democrats of Ohio,
Welcome to Cleveland!" Electric fans at
each window, impelled by a far-off motive
power, created a gentle breeze which was
more than appreciated on this sultry July
day, and as if to awaken livelier gratitude
the hospitable forest city served to its guests
in huge tankards 500 gallons of jlemonade
during the convention.

during the convention.

The band played a patriotic air, and the glee club of Columbus sang "The Welcome Meeting," after which Rev. J. W. Campbell of Cleveland invoked the divine blessing upon the labors of the convention.

upon the labors of the convention.

John S. Norton's Opening address.

When the band had ceased its patriotic music and the delegates were settled into their seats, Hon. John S. Norton of Tiffin, Chairman of the State Central Committee, brought his gavel down upon the desk and proclaimed the gathering in order. He then proceeded:

elevate the author of the bill. To-day you mand that the wrongs the people have more than a quarter of a century shall be not perpetualed; that the clutch of the p free-booter shall be loosened from the t nation; that the foot of the oppressor moved from the necks of the laboring n that in a free country under a free flag shall be free from the despoliation of and the impoverishment of their child that is no more to be honored than the bandit and boccases.

Go to your work to-day with a happy heart and a clear conscience. Act wisely and act well. The eyes of the nation are upon you. Enthrone reason to-day and bury passion. Be brave to do the right; fear to do wrong. The enemy to good Government is outside of our camp and is not within our organization. Raise high the banner of equity, hatice and fairness to all classes and the people will follow you. Under the shadow of the dome of our capitol lives a man to-day, loved and respected by all. Aged and infirm he may be, but his heart is warm and full of love of the people of his party. His head is covered with the service of the party. His head is covered with the service of the party. In Columbus sits grand oid Alien Thurman, watching and waiting to hear from you to-day. He cannot be with you but here sits a worthy son of an illustrious sire, and I introduce your Temperary Chairman, Hon. Alleu W. Thurman.

This was signed by eight members of the Committee on Resolutions.

When the minority report had been read a discussion was demanded by its supporters; an effort to choke it off having failed, Judge Gorman energetically contended that it was not the province of a Democratic convention to take up the fight of the silver Senators of Colorado and Nevada. By adopting a free coinage plank the Convention would put the seal of approval upon their issue of a debased coinage by the Government. The Republican party should not be permitted to divert the Democracy from its true principles, and the Democracy of Ohio could not afford to go into the campaign with the views on the money question as enunciated in the majority report. Gen. Finley followed with an argument on the other side.

THE GOVERNOR'S ADDRESS.

White gratefully accepting a second nomination from the Democratic party of Ohio, my thoughts naturally revers to the record and achievements of that party since the memorable Dayton Convention. Victorious in the ensuring election, the Ohio Democracy has legislated for the State and administered its affairs for eighteen months. In that short period is has desiroyed every vestige of the dangerous centrements to the line made the theory of the state of the state of the control of their relections. It has provided new and better forms of government, in conformity to popular desire, for several of the larger cities. It has devoted time and care to the perfection of s law securing seriors of the ballot, thereby assuring an unbiased and unbought verdict of the people at the polis. This essential reform was frustrated at the first session of the General Assembly by the unanimous vote of the General Assembly by the unanimous vote of the General Assembly by the unanimous vote of the Senators belonging to a political party which recently gathered in convention at Columbus, and prated, with hollow mockery, of a free hallot and afair count. The Democratic party has done more to advance the cause of higher education by its legislation for the Ohio State states than had upper periodic for the line of the state and it has also been mindful of general education by enacting a salutary law for the chapening of school books to the children of the poor, is has the courage to attack the odious fee system whereby public officials were excessively compensated and has substituted a system of just and reasonable salaries. It has especially looked after the welfare of agriculture, which has been continuously imposed upon by Republican Congresses. Sixty thousand dollars were appropriated in one item to provide farmers with the results of agricultural experiments, add in their interest laws were passed with respect to olon-margarine and other products. In a speech made at Shepherdsville, Ky., Monday, Zach Phelps, a prominent lawyer of Louis ville and delegate to the Constitutional Convention, was reported as saying: "Why is Senator John G. Carlisle against the Constitution? I won't tell you, but it will be well for you to inquire who bought and paid for Mr. Carlisle's house in Covington. You will find that it was the Kentucky State Lottery." When asked last evening if he had been quoted correctly Mr. Phelps said: "That's what I meant. HALL'S JOURNAL OF HEALTH

At the conference which was held Maj. Miller stated he had prepared plans and estimates for the work and was then about to submit them to Gen. Casey, the Chief of Engineers, U. S. A. His estimates intimated that the amount required for the work was \$12,000,000, and the time necessary for its completion would be about four years. This would insure a permanent channel of eight feet at all seasons of the year from here to Cairo, and would immeasureably benefit the commerce of the city.

The last annual report of the Merchants' Exchange showed an increase of the tonnage of the Lower Mississippi River from here to New Orleans and this too in the face of an unusually low stage of water during navigable It has been the rule to consider nasal catarrh almost entirely a local disease, and one that has very little effect upon the general system. All this is being rapidly disproved, and it is being shown that if the nose is in an unhealthy state there is quite a long list of affections which may be induced in consequence. Hay fever has often been cured by applications to certain points in the nasal passages. As the major has yielded to the same treatment. It is a well-known fact that when the victim of catarrh suffers from dyspeptia scarcely any improvement in the latter can be made, no matter what is done for it, until the former is on the gain.

Evidence is not wanting to show that severa functional disturbances of the lungs, and even of the heart, are sometimes induced by nasal trouble. Recently there was reported the case of a woman who had had epilepsy for several years, and, although she had patently sought relief, no improvement took place until applications were made to her nose and its condition improved. Under that line of treatment entire recovery occurred. Very many other cases are on record which show that the relation of the nose and other parts of the system is very intimate, the connection being, of course, through the nerve system.

ARGUMENT MADE IN THE COURT OF CRIMINAL CORRECTION.

Pool-Seller Burgdorfer on Trial This Afternoon for Salling Pools on Races Outside of the State-Arguments by Judge Krum, Prosecuting Attorney Dierkes, Chas. Noland and Jas. O. Broadhead.

The anti-pool law was put on trial for its life before Judge Claiborne in the Court of Criminal Correction this afternoon. The court-room was well filled by those interested in the trial. The benches outside the bar held about 300 of the sporting men of the jown and Pool Alley frequenters, and a num-ber of lawyers who came to hear the arguments on the constitutionality of the law sat within the railing. Fred Burgdorfer, who represents the poolsellers in the trial, sat, when Judge Claiborne opened court, in one of the jury chairs, with Charles No

one of his lawyers, and Al Davis. At 1:15 o'clock, the judge, having disposed of a naturalization case, said, "Call the next Martin Moore.
"Here," replied the pool-seller, who had changed his seat to one at the table occupied by his counsel.

"Are you ready to proceed with this case?" asked Judge Claiborne.
Prosecutor B. Dierkes and Attorney C. H.

Krum said the defense and State were both Attorney Krum then opened the case for

court, especially one of such limited jurisdiction as the Court of Criminal Correction, should act with more caution and hesitation. The act is presumed to be constitutional, and that every reasonable doubt must be solved in favor of the validity of the act. The court should not be technical in its construction, but the act should be liberally construed, with a view to sustaining it and giving it life and force.

and force.

A court should never seek for grounds upon which to build a reason for destroying a law, but should endeavor to look for reasons which would permit him to uphold the act.

Taking up the first point raised by the defense as to the title of the act, Mr. Noland declared the rule to be that if a title to an act fairly states the general subject covered by the act it is sufficient; mere matters of detail need not be stated in the title. This rule had been laid down in 42 Mo. 589, and followed in been laid down in 42 Mo., 588, and followed in a large number of cases, the last expression being found in 100 Mo., 445. The subject of this a ct is the prohibition of pool selling and book-making incertain ways and upon certain events. The manner in which these results vere to be brought about need not be state

in the sitle.

PROHIBITING AND REGULATING.

The defense, Mr. Noland said, contended for a narrow and restricted definition of the words "prohibit" and "restricted definition of the words "prohibit" and "regulate."

"Prohibit," according to the State's Constitution, meant to forbid or to hinder either entirely or partially.

"Regulate" meant to permit and make rules for the government under such permis-

sion.
In other words, he said regulation applied and for to those acts expressly permitted and for whose government rules were made. On the other hand the defense claimed that the word "prohibit" meant entire inhibition, that an act could not be forbid or hindered except to the extent of entire prevention, and that anything short of this was "regula-

tion."
This, Mr. Noland said, was in direct conflict with the definition of the word "regulate," as given in the cases of State vs. Clark (54 Mo., 17) and State vs. De Bar (58 Mo., 395), and was in conflict with the definition of the word "prohibit," as given in Miller vs. Jones (80 Ala., 95) and in re Hauck (28 N. W. Rep. 260)

(38 N. W. Rep., 269).

The absurdity of the defendant's position lies in the fact that he is asking this court to discharge him and destroy a law because that law is not as strict as he thinks it ought to be—that the business of bookmaking and pool selling is not to be disturbed at all, un-less the Legislature entirely prohibits it. EVEN STATE POOL-SELLING DOUBTFUL.

EVEN STATE POOL-SELLING DOUBTFUL.
In concluding his argument on this point
Mr. Noland said there was not a line in the
act which permitted the sale of pools and
bookmaking on events occurring within this
State—the law was silent as to that. But every provision in the bill related to the en persons. Every provision was prohibitive and they were all germane to the title and the title generally expressed them.
Our Supreme Court sustained an act entitled "An Act to Protect Married Women."
It did not state whether the protection was

o extend to their property or their lives. To strike down this act, by which the Legis lature endeavors to break up the pool-rooms, and permit these rooms to run perfectly free and open on the narrow and restricted defini-tion of the word "prohibit" will be a great IMMORALITY OF BOOKMAKING

Medical Society of Missouri were also read. The Secretary's report was adopted.

AN UNEXPECTED MOVE.

The "three years' fight" was then opened by the following resolution, submitted by Dr. Atkinson.

Whereas, it is the sense of this board that the efficient, proper and just solution of the question of higher medical education is to be found in the creation of a Seate Board of Medical Examiners; therefore be it.

Resolved, That a committee of three be appointed to prepare a suitable bill to this end, to be presented to the Legislature at its next session.

2. Should the Legislature fail to take action in the premises this board will feel disposed to exercise the at present questionable authority of construing the phrass, "college in good standing," to mean such colleges as require three courses of lectures as a condition te graduation in medicine.

This resolution, suddenly shifting the fight by introducing the question of a medical examining board, stirred up a hot discussion at once. It was seconded by Dr. Gohm, and Drs. Atkinson and Griffith spoke at great length in its favor, while Dr. Homan represented the board sentiment in favor of the three-years' course. Dr. Atkinson denounced the idea of the board being dictated to by medical societies, colleges or other bodies, and Dr. Griffith said the board's present system of examination was simply a "documentary" one, consisting of examining diplomas, instead of applicants. Drs. Homan and Atkinson at one time indulged in rather a lively personal till over a charge of Dr. Atkinson's that the State Board was inclined to shirk examinations and thus deter applicants for examinations, showing that a medical examining board was a necessity. The argument was still at its height when the chair at 1 o'clock adjourned the meeting to 2 o'clock this afternoon, when the Hotson ease was taken up.

Mme. Louise Hotson, the notorious midwife whose connection with Laura Fitts' death caused the State Board of Health to commence proceedings against her to revoke her license as a midwife, applied to Judge Klein of the Circuit Court this afternoon for a writ of injunction to

The regular meeting of the State Board of Halth following, the special meeting held in Jeferson City May 28 last, was called to order in Parlor 27 of the Lindell Hotel at 10 o'clock this morning, President Merrill in the chair. The members present were Drs. Merrill, Goben, Griffiths, Hall, Mr. Harmon and the Secretary, Dr. Homan, leaving only one member of the board, Dr. Atkinson, absent. The latter appeared, however, shortly after the proceedings opened. The first half hour of the meeting was devoted to the transaction of routine business. Crops in Michigan.

Lansino, Mich., July 15.—The Michigan monthly crop report for July is the first official estimate of the probable total yield of wheat from this year's crop. The estimate is 24,671,665 bushels and this is probably low. The area is 160,000 across in excess of that harvested in 1860. The area planted to corn is a per cent less in the southern counties than in average years and the corn crop is an average? Oats also were injured in May and the condition in southern counties is 87 per cent and in the central 77 per cent. The apple crop is estimated at two-fifths in the southern, one-third in the central and one-fourth in the northern counties of an average condition. The condition of peaches is re ported about four-fifths and a half of an average crop in these sections.

STORY OF A LONDON GIRL WHO CAME TO ST. LOUIS.

Criminal Assault on Emma Weinbauer

August Huth of 901 South Ninth street to which he thinks will result in the restoration of a young lady to her family, from
whom, it appears, she has long been separated. The story has a decidedly
romantic color. A short time ago a

a young man named Estabrook from Leeds,
England, visited New York, Boston and other
Eastern cities, trying to locate the whereabouts of Miss Mand Estabrook, who disabouts of Miss Mand Estabrook, who dis-

Mrs. Raving, who was a Miss Addie Cole up to fourteen months ago, has been having a rather rough time of it with her husband if her statement is correct. She stated that Raving treated her with the utmost contempt and never allowed her more than \$2 a week. "Several months ago," she continued, "he stopped giving me money entirely, and I had a hard time to keep from staving." He left her a couple of weeks ago and she was forced to go to her mother's home. When questioned further she said that she had nothing to eat July 4 and 5, and on the 6th became desperate and swallowed a quantity of Paris green to end her misery. A physician was called in hurriedly and her life was saved. She says she will prosecute Eaving if he is arrested.

Adam Zeigenhein, a son of Collector Henry Ziegenhein, and Charles G. Kraeger of 182 Ziegenhein, and Charles G. Araeger of 1826 Cherokee street have requested the police to arrest a young man named Edward Batchelor of 2110 Cherokee street. Batchelor, they claim, pointed a revolver at them yesterday and fired six shots, without any provocation whatever. They were standing in front of Kraeger's residence at the time. Mone of the bullets took effect. Batchelor has not as yet been arrested.

The warrant was issued on the complaint of Tim Mahon, the foreman of McMurray & Judge's foundry. But he didn't remove the load. He followed smith.

The opportunity soon came to replace the bogus cracker with the real one. It was the latter smith drew from his pocket, while he braced himself against the ber and unsteadily touched a maleh to the fuse. Smith was knocked down in the rush to the door. To this adventitious circumstance he probably owes what remains to him of his physical well-being.

The cracker exploded with a terrific report, shattered \$200 worth of giass, for which young Mr. Smith must pay, and incited the proprietor to an assault upon Smith which made him wish he had gone off with the cracker.

The cracker joke will be labeled "dangerous" and hid away in the darkest closet the young man can find when he comes to his senses to-day.

An interesting character in American history is the Rev. Mason L. Weems, pastor of Pohick Church and biographer of George Washington. He was something of a romancer and to bis powers of invention we owe some very interesting stories of the childhood of the Father of his Country. The most familiar and celebrated of these anecdotes is the one which tolis how little George hacked his father's favorite cherry tree, and when taken to task about it, nobly replied: "I can't tell a lie, pa; you know I can't tell a lie, pa; tell a lie, pa; you know I can't know I can

"The act is in no proper sense a legitimate exercise of the police power of the State. It is unequal in its operation. It is hostile to rights of personal liberty. It is foreign to rules of conduct dependent upon good morals. It is a legal incongruity which cannot meet with favor at the hands of either the judge or the moralist, because it is as repugnant to every consideration of equality and liberty under the law as it is destructive to virtue and abhorent to sound morals. But the Legislature of the State of Missouri, in the exercise of what is claimed to be the police power, declare that it is consonant with good morals to record bets and sell pools, provided the bets are made or the pools sold with reference to some trial of speed or endurance between beasts, or between man and beast, which takes place within this State, but that it is not in keeping with rood morals to do the same act with reference to the same kind of trial of speed or endurance which takes place outside of this State. MR. NOLAND'S ADDRESS.

Noland, for the prosecution followed Jamestown, N. I., to visit her son, H. A. Doering.
The Carondelet Gun Club held a meeting last evening at its quarters on Broadway and Koeln avenue. On account of the small attendance no business of importance was transacted. Mr. Noland said that it was a most delicate and important question for a Supreme Court to pass on the constitutionality of the law and declare it invalid, and that an inferior

The State Board of Health Settling the

Halth following the special meeting held in Jefferson City May 28 last, was called to order

this morning. President Merrill in the chair.
The members present were Drs. Merrill, Goben, Grimths, Hall, Mr.
Harmon and the Secretary, Dr. Homan, Harmon and the Secretary, Dr. Homan, leaving only one member of the board, Dr. Atkinson, absent. The latter appeared, however, shortly after the proceedings opened. The first half hour of the meeting was devoted to the transaction of routine business. The much agitated question of the three years' collegiate course for all medical colleges in this state was the most important business to come before the forenoon meeting. It had caused a somewhat sensational break-up of the special meeting in Jefferson City, and it was felt that when the motion to make a three-years' term obligatory on all colleges. and it was relit that when the motion to make a three-years' term obligatory on all colleges in good standing in the State was made the "three-years' war" would again break out. The opponents of the change of term were Drs. Atkinson and Goben, who left the Jefferson City meeting before adjournment and prevented a vote on the motion at that time.

motion was afterwards withdrawn and a motion was alterwards withdrawn and a motion that the unqualified members go be-fore the Circuit Clerk of the city and be sworn in was made by Dr. Atkinson and carried. It was then voted that the minutes of the Jefferson City meet-

ing be so corrected as to relieve Drs. Atkin-son and Goben of the implied charge of hav-ing broken up that meeting in order to avoid a vote on the three years' term question.

because they could not produce their com-missions as members of the State Board of Health. It was then argued that those two members could be empowered to take part in the meeting by a vote of the board, and a vote to that effect was taken, resulting in the

members being seated. Secretary Homan then read his official report to the board. Touching upon the three years' term ques-tion the report reads as follows:

hus manifested.

The resolutions of the Medical Association

this morning, however, precipitated the controversy before the time expected. Secretary Homan in the minutes dwelt with considerable stress upon the fact of Drs. Atkinson and Goben having left the Jefferson City meeting before its adjournment. This was objected to on the ground that it placed the onus of breaking up that meeting of those gentlemen, when the fact was that Dr. Hall had also left before the two named. All the departures had been made while a motion to adjourn

mad been made while a motion to adjourn was pending, and the motion was never put to a vote. A motion amended to postpone action on the three years' term question to the July meeting had been pending, and was withdrawn, but no mention appeared in the minutes. Objection was made to the minutes prounds.
Dr. Atkinson then again raised the point brought up at the Jefferson City meeting, that several members of the board had never qualified in office, and were therefore not qualified in office, and were therefore not entitled to act in the board at present. The lack of qualification consisted in members not having been sworn in on their commissions, as required by law. Dr. Goben demanded for himself, Dr. Griffith and Mr. Harmon, that this question should be settled before the board transacted further business. Dr. Homan stated that those gentlemen were qualified on their old commissions, no successors having been appointed, and moved that the board accept such qualification until Mr. Leverett Bell could render an opinion on the point this afternoon. This motion was afterwards withdrawn and

On the second point raised by the defense, that the act violated the "bill of rights," he read from State vs. Addington, 12 Mo., App., 217 and 219, which he claimed was directly in point against defendant. As to the question of the act being an unwise exercise of the police power, he read from the case deciding the social evil law, in which the Supreme Court said that with the expediency, propriety or wisdom of a legislative enact.

A DISGRACE TO CIVILIZATION.

In the World of last Sunday is a renarkable article on the persecution of the Jews in Russia, which goes into detail world shudder with horror.

The medieval persecutions of the Jewish race cannot be justified or excused and they merit the severest reprobation of history. But they can be explained by the universal ignorance which prevailed and which led en into errors which malice would not have suggested. The Russian monarch. however, has not even the poor plea of igorance to save himself from the execration of humanity. There is no insurmountable barrier between him and the spirit of humanity which is redeeming the world. If he does not feel the influence of this spirit it is because he is hopelessly given over to savagery and he does not deserve any more consideration than that granted a savage chieftain. He has put himself outside the pale of civilization and after the reveations following those of Mr. KENNAN on Russian prison atrocities there can be no onger any doubt of the barbarism of the

Russian despotism. It has been one of the most inexplicable puzzles to thinking men that so many Americans have for so long retained the warm feelings towards the Russian Government justly aroused by its friendly attitude during the civil war and by the liberal measures adopted by ALEXANDER II. in the earlier years of his reign. This friendliness crops out at every rumor of war between England and Russia and seems to be a corollary of the hostility to Great Britain which is so sedulously cultirated by a certain class of demagogues. But t should be remembered that in forfeiting the respect of Christendom the Russian Government has forfeited the friendship of the United States. No past service can possibly justify a continuance of partiality owards a savage despot. The American press and people ought to be a unit in conlemning the atrocities of the Jewish persecution and on securing the requisite formal proof this Government would do well to make known to the Czar the sentiments of the American people. Our Government has made many precedents during the hundred years of its existence, and i no precedents exist which exactly cover this case it would be justified in making

GITCHELL MAKES ANTHER EXPLANA-TION AND ALS A THREAT.

in a Very Bad Bx-Gitchell Tells Something About Ht Land Business-The Title to the Days Property Badly

If Charles E. Gitchell had been content when he first came to it. Louis, to acquire property in the good ild way by buying it and paying the owners its value, he would not now be in consultation with a lawyer about that orged deed from Theodore Davis which that young man's father wants the Grand to a various. Nobody who has looked at the deed doubts the signature of Mr. Days was forged to it, except Mr. Gitchell himself. The only question in the natter for the Grand-jury to decide will be who wrote the signature which TheodoreDayis repudiates, and who was the man taken by Andrew G. Brown before a notary to swear he was Theodore Dayis and acknowledge the signature as his own. The liw on forgery indicates clearly that if another Theodore Dayis than the owner of the ot was taken by Brown before the notary, and signing his own name, passed the deed as the work of the genuine Theodore Days, he would be as guilty of forgery as if his name had not been Theodore Dayis but John Smith. Understanding this, the man who went with Brown before the notary will not be likely to expose himself for prosecution by coming forward, even though he by named Theodore Dayis. Until he does, the burden of the doubtful instrument in the office of Recorder Hobbs rests upon Brown. Brown says he was doing the whole

tradicting the other and trying to shield fairself, but they must be given for the sake of fairness.

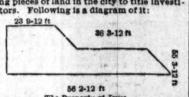

GITCHELL MAKES ANOTHER STATEMENT.

Mr. Gitchell sought another interview with a Post-Dispatch reporter ifter the story of the forged deed was published. After reading it he saw what a seriou business it was and how the conflicting statements of Brown and himself reflected upon both. Evasion, denial and misstatement are very soft things in conversation, but they have a look of rascality when they are printed by clear, sharpedged types.

"Mr. Clarke made a mistake when he told you that I had got back from Andy Brown the \$50 I paid him to get that deed from Davis," said he. "It was this way. I went to Clarke after I saw andy and told him I didn't want to lose my meney, but I didn't want to get into trouble by attempting to compound a felony. I asked him if there would be anything wrong in my taking the \$50 if it was offered to me. He went out and came back and told me that it would be better to put the money in an envelope and keep it sealed up until we got through our investigation. We are looking the whole thing up now. I don't want anything to do with any forgery, and if the investigation shows that I've been done up why I just guess I'll have to do a little prosecuting myself. I don't know, though, that the thing is a forgery," and Mr. Gitchell then devoted a few minutes to an attack upon the character of Joseph Davis, the father of Theodore. He might have sold the property to some worthless fellow, and Andy might have got him to sign the deed," he said.

"I do a good deal of business in land," Mr. Gitchell went on, "and I have all sorts of transactions on hand. It is no wonder that I should get done up now and then for fifty by some fraud. I make most of my money buying imperfect titles. I get possession of the property and hold it against all comers. I buy tax titles, but there's too much trouble in them. They're no good, and I'm going to stop it."

property is the one that has got Mr. Gitchell into his present disagreeable position. The property concerned, on the corner of Taylor and Delmar avenues, is one of the most puzzling pieces of land in the city to title investi-Following is a diagram of it:

The Property at Issue.

Its history is clouded, too. In 1855 half of it was owned by Robert Wash and Clay Taylor, who sold it to R. H. Obear or Ober, who sold it to E. G. Obear. Then George M. sold it to E. G. Obear. Then George M. Fisher got an execution against E. G. Obear and Joseph Davis bought the lot when the Sheriff sold it from Obear. Joseph Davis passed it to Theodore Davis, his son. But in 1883 the lot suddenly appeared on the Assessor's books with Charles E. Gitchell paying taxes on it, and neither the Davises nor the Obers nor Obears

up the Davis end of the title, and buy them out. He says he spent some time looking for them and sent Andy Brown after Theodore Davis only after he had searched in vain. This is singular as both the Davises have places of business, and their names and inome addresses are in the directory.

R. C. Lange, a title investigator for August Gehner, says the piece of land is in such a muddle that the firm will not give a certificate as to its ownership, and at the title abstract office of Henry W. Williams it was said that it would be fully a day's work to trace the title.

said that it would be fully a day work to trace the title.

REFUSED TO HANDLE THE PROPERTY.

Edward Greer of the real estate firm of R.

C. Greer & Co. says that Theodors Davis wanted his firm to sell the property some time ago, but he refused to handle it on account of the cloud of the title.

The method of obtaining property employed by Mr. Gitchell is not a new one in St. Louis. In 1872 so much uneasiness was felt by the owners of property, on account of the operations of men who were claiming tracts of land by obtaining possession of old and unsettled titles, that James Lucas went before the Legislature and got a law passed to stop it by requiring all claimants to make their demands within ten years.

The committeemen are a unit in favor of a redistricting of Missouri so as to give the State affeen Democratic Congressmen. As regards the State election next fall, they are all confident of a big Democratic victory, but have no choice for Governor as yet and offer no predictions as to the personnel of the ticket.

IT ALL DEFENDS.

Mr. John H. Carroll, who is Chairman of the Executive Committee of the Central Committee, thinks that Gov. Campbell of Ohio will be the next Democratic candidate for President if he is re-elected Governor. "I god have any doubt as to that if he beats McKinley for Governor," said he, "and Gov. Boise of Lowa would also be a good man on the ticket if he is re-elected Governor this fall and I've no doubt that he will be. Of Campbell's re-election this fall there is some doubt, but still he stands a good show. My own choice is Cleveland, and he is the choice also of the Democrats of Missouri, notwithstanding his silver letter. They believe in making tariff the one issue of the campaign next year, as to have more than one main issue would weaken rather than strengthen the party, and if Cleveland, goes into the convention backed by the delegation of his own State, he will get the nomination. If he is not supperted by the Democratic delegation from New York, then I would not favor his nomination, although personally he is my choice for President. It all depends on the fight next year with a united party, for with-out harmony we cannot win. We must go into the fight next year with a united party, for without harmony we cannot win. To win we must carry the solid South, and Connecticut, New Jersey, Indiana and New York. Any other calculation is a wild one. We have a good chance, true, in Illinois, Iowa and Wisconsin, but they each have a large soldier vote, which in presidential elections is cast for the Republican party and our success in those States next year is doubtful and we should not count upon carrying either one of them, but New Jersey, New York, Indiana and Connecticut are all Democratic States and if we put up a ticket which is acceptable to the Democracy of those States we are bound to win. Gray of Indiana is a strong man and would be a good candidate at either end of the ticket.

\*\*SURE OF JOWA.\*

Mr. George T. Dunn of Lincoln County thinks the Democratic presidential ticket in 1897 will be either Cleveland and Gray or Cleveland and Boiss. The Democracy can carry both Indiana and Iowa next year, he says, but is not so certain about Ohlo, Cleveland's silver letter will hurt him some, but if the convention were held to day he would be nominated by a large majority. A great deal depends, Mr. Dunn thinks, on the result next fall in Ohlo and Iowa. He expects, however, that the issue of tariff reform will carry the Democratic party to victory next year whatever may be the result in those States this year and irrespective of the candidates placed on the presidential ticket in such a way as to issue a clean Democratic sweep for Congressmen in 1892. The choice of his section for Governor is Dick Dalion of Ralls County, or at least he is the only person in that part of the State who has yet been mentioned in connection with the nomination.

"Cleveland is my choice," said Mr. D. J. Allen of Piedmont, Mo., but if we don't get him I think we'd better take a Western man, and in that event Carlisle or Campbell or Boles would do to head the ticket with, supposing, of course, that Ohio and Iowa go Democratic this fall. ### MRS. HOTSON'S TRIAL

Charges Against the Midwife Considered by the State Board.

DAMAGING DEPOSITIONS OF TWO FALLER WOMEN SUBMITTED.

Woods' Opinion to the Board-It Was Sent to the Governor, But Did Not Reach Secretary Homan Until This

The proceedings of the State Board of Health in its case against Midwife Hotson today possessed one most peculiar and remark-able feature that should certainly meet with an explanation from Jefferson City to dispel its mystery. The official opinion of Attorney-General Wood as to the jurisdiction of the board in its supervision of the the board in its supervision of the practice of midwifery in this State was forwarded by that judicial officer to Gov. Francis over three weeks ago. Despite that fact the State Board of Health only received

frants of the State Board of Health only received the opinion to-day, after having been forced to act in ignorance of its tenor.

In the absence of any knowledge of the purport of the Attorney-General's opinion, Secretary Homan laid the question of jurisdiction, raised by Midwife Hotson's attorneys, before ex-City Counselor Bell of St. Louis. The opinion rendered by Mr. Bell was almost exactly similar to the decision handed down yesterday by Judge Klein, supporting the board's right to regulate the practice of midwifery as a department of medicine or surgery. But in the ate the practice of mixery. But in the meantime the Attorney-General's opinion was stranded somewhere in the pigeon-holes of the Governor's office. When the further fact the Governor's office. When the further fact is stated that Secretary Homan's official letter asking for such an opinion also became stranded in the Governor's office for nearly a month, the delays and difficulties that have surrounded the board's prosecution of the Hotson case become significantly apparent. The story of the efforts made by the board to secure the opinion of the Attorney-General tree interesting one.

when Secretary Homan boarded the train for St. Louis at Jefferson City after the meeting of the State Board of Health in May st, he met Gov. Francis and Attorney eneral Wood, also bound for this city. The wo latter were discussing the Hotson case then, and Secretary Homan told the Attorney-eneral that the question of the board's juris-tetion had been raised by Midwife Hotson's twyers, and that the point would have to be led by an opinion from the Attorney-Ger remains the latter promised to give the matter his prompt attention. On the next day At-orney-General Wood was interviewed by a POST-DISPATCH reporter relative to the Hotase in the presence of Gov. Francis, d he stated that he could not express an pinion at that time but would do so as soon as requested by Secretary Homan.

THE GOVERNOR HAD IT. THE GOVERSOR HAD IT.
Following the proper course in such matters, Secretary Homan, promptly on arrival in St. Louis, that same day, addressed an official letter to Gov. Francis asking that the Attorney-General be requested to give an opinion on the case. Three weeks later Secretary Homan received a letter from Attorney-General Wood asking why he had not secretary Homan received a letter from According to the opinion in the Hotson case. The board Secretary, at once repited that the application had been promptly made through Gov. D. R. Francis. Then, after waiting a reasonable time, Sec-Homan in turn wrote to Attorney.
Wood, asking if he had not rendered
nion. The Secretary now has in his
iona letter signed by the Attorney. ral, under date of June 30, stating that pinion had been forwarded to the Gov-several days before. That letter es-shes the fact that the official opinion hich would authoritatively pronounce upon be board's jurisdiction on practicing mid-tives was rendered three weeks ago, and ttil to-day nothing whatever had been eard from it

h over the practice of midwifery as a much of medicine or surgery, stating that e charges against midwife Hotson were thin the province of the board to prosecute and revoke the midwife's license.

THE TRIAL BEGUN. The hearing of the case against Mrs. Hot-son has been set by the board for 2 o'clock this afternoon and at that hour the board was ready for the trial bearing so strongly upon the Laura Fitts tragedy and involving o revoke the license of Midwife Hotson charge of unprofessional and dishon-

here, have not accomplished much as yet, and their session will last at least ten days or two weeks. No legislation was passed at all at this morning's session, although the meeting did not adjourn until fifteen or twenty minutes after 12 o'clock, and it is the custom to adjourn promptly at moon. The members of the press committee refused to state what subject they were discussing, saying that they had been instructed not to give out anything whatever about the matter until some decisive action had been taken on it one way. It is supposed that the matter under consideration to day was the proposition to withdraw from the knights of Labor and join the American Federation of Labor. It is believed that a special committee appointed yesterday to report on the matter, did so this morning, and it is said that there were majority and minority reports made. The sentiment of the convention is divided on the question, and as a result the whole morning session was given up to a warm discussion of of it without any result being obtained. Owing to the interest manifested in the matter the convention remained in session some time after the regular hour for adjourning. This afternoon the matter was again taken up, and there may be a split caused by the question, as both sides seem determined.

There will be no session of the convention to-morrow, the delegates visiting the Anheuser-Busch brewery in the morning, and then going on a steamboat excursion. At the brewery they are to be given a lunch by Mr. Adolphus Busch, who runs three bottle factories in connection with his beer manufacturing business and yet is a heavy purchaser of bottles from other factories.

School Board meeting last nigh Director O'Connor offered a resolution to fit up for school purposes the Church of the New Jerusalem, adjoining the Stod-dard School, purchased by the School dard School, purchased by the School Board last December. The necessary repairs will cost \$2,200, and the school will be a branch of the Stoddard. Director Bartholdt istroduced a resolution requiring principals to furnish pupils, from the fourth, fith, sixth and seventh grades, certificates showing what grade was reached. The attorney's report on the tax question was read and consideration deferred until the next meeting. Reports of officers and committees for the past year were read and committees for the past year were read and accepted. The Course of Study Committee recommended that a manual training school be established at L'Ouverture Colored School. Mr. Charles B. Stark, attorney for the board, was granted a leave of absence for thirty days. Mr. Richardson offered a resolution requiring the Lands and Leasing Committee to co-operate with the citizens of Carondelet in opening Virginia avenue. John M. Dutro was elected to fill the vacency in the board caused by Dr. Auler's death.

opera that improves decidedly upon acquaintance, and the public has not been slow in its manifestations of approval.

The score, while not containing music of any great brilliancy, still possesses the distinct charm of originality. One or two numbers are decidedly well rendered by the Casino Opera Co., to which is imparted a dash and inish that is particularly pleasing. No spot in this city affords a greater opportunity for real enjoyment during the summer evenings than Schnalder's Garden, which more or less resembles "Fairy Land," with its many colored lights, its playing fountains, its excellent orchestra and entertaining performance of "The Red Sergeant" in the commodious amphitheater. Offenbach's charming opera "The Princess of Trebizonde" will follow and will be staged lavishly.

AT URRIG'S CAVE.

Tuneful "Amorita" holds the favor of the public at Uhrig's Cave. There is an abundance of bright and melodious music in the score, while the action is brisk and entertaining. Alf C. Wheelan has made a hit with his comedy work and Stuart Harold sings in fine voice. Miss Reed and the others contribute good work and altogether the garden presents a drawing attraction. This opera will run for the remainder of this week.

BUG HOLLIDAY WANTS TO GO If one player more than another has reason to feel kindly to the Cincinnati spectators it to feel kindly to the Cincinnati spectators it is Bug Holliday, says the Cincinnati Enquirer. "Bug" received a "hand" from the crowd time and again when players who were playing better ball went to the plate unnoticed. Yet it seems the Bug wants to get away from Cincinnati. Ed Stevens, the base-ball editor of the Boston Herald, said yesterday that Holliday went to Manager Selee at the Gibson House the other evening and said: "I hear the Boston Club is looking for an outhelder. If that its so count me in. I would like to get away from here." If this is true it is a clear violation of the spirit of the constitution of the League. game. The St. Louis boys had everything their own way, knocking out two of the Capital City's twirlers. That, combined with the poor field support of the home club, made the game hardly worth witnessing. The St. Louis aggregation opened up by slugging the sphere in the second inning and kept pounding it the rest of the game. Willie McGill officiated in the box for the Browns and was ably supported by Paul Cook. The batting of O'Neill, Comiskey and Egan was noticeable. McGuire's catching was the only redeeming feature of the game from Washington's standpoint, The summary was as follows:

The League averages up to July 12 are here

It is understood here that ex-Umpire Valentine of Brooklyn will be shortly appointed to take the place of Jones or Davis in the Amprican Association.
